WORK EXPERIENCE

Full Stack Developer IntelliEdteach

08/2023 - Present

Gurugram, India

IntelliEdteach was founded with a clear vision: to revolutionize traditional education models by utilizing the capabilities of AI to cater to individual learning needs.

Achievements/Tasks

- Working as fully single handed teacher app frontend and backend
- On front end using react native and backend using node, database MongoDB.

Contact : mehtab alom - +91 98183 69374

Software Developer SarvM.AI (Ecommerce)

01/2022 - 08/2023

Bangaluru (INDIA)

"Empowering Food Supply Chain Stakeholders", End to End Digital Enabler for Food Supply Chain. ([SarvM.AI – Empowering Food SupplyChain Stakeholders](#).)

Achievements/Tasks

- I was assigned to develop cross-platform mobile apps Household_app, Delivery_app, and Retailer_app, and integration with API.
- I have created pages where users can select their food, select languages, food category, select city, preferences, and retailer home screen, payment screen, OTP, select-category screen, and for delivery app select vehicle, personal info, KYC screen, and many more screens.
- I have worked on features like user management, delivery management, retailer-to-logistic app integration, and delivery charge configuration.
- I have used Angular, Ionic, SCSS, and node.js for all of these.
